PROFESSIONAL SUMMARY

Fourth-year BS Information Technology student at De La Salle Lipa specializing in System Development, with hands-on experience in full-stack web and mobile application development gained through capstone thesis and academic coursework. Seeking an IT internship opportunity to apply technical expertise in React Native, React.js, Node.js, and Supabase, contribute to real-world software solutions, and collaborate within an innovative development team.

EDUCATION

Bachelor of Science in Information Technology—Major in System Development *March 2023 – June 2027*
De La Salle Lipa, Lipa City, Batangas, Philippines
GWA: 3.40/4.00 | Honors: Dean's Lister 2023 - 2024 (1st and 2nd Semester) 2024 - 2025 (1st Semester)
Relevant Coursework: Web Development, Mobile Application Development, Systems Integration & Architecture, Database Systems, Data Analytics, Information Assurance & Security

TECHNICAL SKILLS

Programming: Python, TypeScript, JavaScript, Java, C++, PHP, SQL, HTML5, CSS3
Web & Frameworks: React.js, React Native, Node.js, Express.js, FastAPI, TanStack Query, Zustand, Tailwind CSS
Databases: MySQL, PostgreSQL, SQLite, MongoDB, Supabase, Mongoose
Tools & Platforms: Git, GitHub, Postman, Visual Studio Code, Linux, UiPath, Power BI
Professional: Agile/Scrum Methodologies, System Design & Architecture, Quality Assurance & Testing, Technical Writing, Problem-Solving

PROJECTS

PalengkeHub: An Online Stall-Level Price Transparency and Pre-Ordering System *March 2026 - October 2026*
Capstone Project

- Developed a cross-platform mobile and web marketplace using React Native, React.js, Node.js, and Supabase to eliminate price opacity and enable stall-level pre-ordering for consumers, vendors, and administrators in Lipa City Public Market.
- Achieved a 100% pass rate across 18 functional test scenarios and an overall User Acceptance Testing (UAT) mean score of 4.17/5.00 across 30 evaluators (20 consumers, 8 vendors, 2 administrators), with Usability (4.35/5.00) and Functionality (4.28/5.00) receiving top ratings.

SipGo: A Digital Café Pre-Order and Management Platform *July 2026 – October 2026*
Course Project

- Designed and developed a full-stack digital pre-order and management platform using React, TypeScript, Node.js, Express, and MongoDB to streamline customer ordering workflows and administrative inventory controls for café patrons and staff.
- Integrated secure JWT authentication, backend request rate-limiting, and an automated AI-powered suggestion workflow to optimize item matching efficiency, accelerate transaction retrieval workflows, and enhance the overall checkout experience.

Auto Avenue Inventory Management System (IMS) *May 2025 - June 2025*
Course Project

- Developed an automated inventory tracking and supplier portal using PHP, MySQL, and RESTful workflows; accelerated inventory auditing workflows and enhanced stock movement transparency across departments.
- Implemented secure user role authentication, automated stock reorder thresholds, and report generation workflows; reduced inventory auditing time and prevented stockout discrepancies.

LEADERSHIP & ACTIVITIES

Member | *Junior Philippine Computer Society (JPCS) – De La Salle Lipa Chapter* *2023 – 2027*

- Participated in IT workshops and seminars, assisting in event coordination and campus tech activities for the student community.

Varsity Athlete | *De La Salle Lipa Men's Football Team* *2023 – 2027*

- Represented De La Salle Lipa in competitive football tournaments, demonstrating high-pressure discipline, athletic resilience, and effective team coordination.

CERTIFICATIONS & TRAINING

Cyber Threat Management Cisco Networking Academy *2026*
Cisco Certified Python Essentials 1 & 2 *2026*
Skills to Succeed Academy Accenture 2026
